Holiday with dog - together on river cruise

Since 2009 we successfully carry out our river cruises with dog. On board MS Poseidon, dogs are not "allowed" or "tolerated" during the river cruise with mum and dad, as in some hotels, but dogs are absolutely welcome on board!

What's more, our four-legged friends are in the foreground on our travels across Holland's rivers and canals as well as the Rhine and the Moselle.

Holidays among like-minded people - this is the beloved and lived motto for animal lovers on the journey. On our "owner-dog-trips" animal lovers meet and undertake a journey, tailored to a shared experience of humans and dogs. Our river cruises take us to neighboring Holland, where the dog is a welcome holiday guest. Of course, guests without a dog are also welcome.

For your four-legged friends

On board, everything is trying to prepare you and your dog a nice holiday. Of course, in the numerous dogs traveling with a "small house rules" must be followed. The stay for your dog is permitted on a leash in all guest areas on board. Whether in the salon, restaurant, at the reception or on deck - you can carry your four-legged darling with you. Fresh drinking water is available both in public spaces and in the cabin. Bring the usual food with you, so that your four-legged friend can eat his familiar food. For a treat at the front desk is of course taken care of. The moorings we have laid so that during the day several stops in mostly smaller places are inserted. In between we have set up a small dog meadow on the sundeck.
